Education

IEB – Instituto de Estudios Bursátiles — Madrid, Spain
Master in International Finance: Investment Banking & Global Markets — Sept 2026 – Jul 2027

- International modules at The Wharton School and Bayes Business School.

Universidad Antonio Nebrija — Madrid, Spain
Bachelor's Degree in Economics & International Business — Sept 2022 – Jun 2026

- Dissertation: *Eurosystem Liquidity, Financial Duration and Relative Asset Valuation* – 9.5/10.
- Honours (Matrícula de Honor) in Globalization and International Trade, and Strategic Management. GPA: 7.87/10.

Additional education: *The Quantifiable Value of Art*, Universidad Complutense de Madrid, 2026; *Liquid Draft* Corporate Innovation Programme, Universidad de Alcalá, 2025; Cross-Curricular Subjects Diploma, Universidad Antonio de Nebrija (2022–2026)

Professional Experience

BBVA — Madrid, Spain
Strategy & Performance Intern, Business Banking & Institutions (BEI) — Aug 2025 – Feb 2026

- Developed and deployed AI-driven tools to automate KPI reporting, sector/peer benchmarking research and new-segment analysis, including an AI assistant ("digital twin") for senior leaders to manage internal queries and correspondence.
- Authored and presented peer benchmarking and competitive positioning analysis to senior management, assessing fintech-driven threats and opportunities for BEI – incorporated into the 2026–2030 strategic planning cycle.
- Supported the strategic planning cycle through client segmentation, market sizing and commercial prioritisation of business initiatives.

Made for Spain & Portugal — Madrid, Spain
Intern, IT & Product Departments — Apr 2023 – Oct 2023

- Redesigned internal customer and product databases in Excel and the company's internal software, improving data consistency and information retrieval across Product and IT teams.

Freelance — Madrid, Spain
Cultural Guide — 2022 – Present

- Led guided tours for a primarily English-speaking international clientele as a freelancer, presenting complex historical and cultural information clearly and persuasively to high-end clients in a client-facing environment.

Selected Finance Projects

Undergraduate Thesis, Macro-Finance and Asset Valuation

- Analyzed the effect of Eurosystem liquidity shocks on European Growth and Value equities using Python and monthly market data (2000–2026), finding that expansionary shocks relatively favor Growth portfolios.

Equity Research, Financial Modeling & Valuation – BBVA and Repsol

- Produced full equity research reports combining company and sector analysis, peer benchmarking, financial forecasts and sector-specific valuation models, including DCF/FCFF, P/TBV and trading comparables, to derive 12-month target prices, investment recommendations and scenario-based risk assessments.

Quantitative Portfolio Management Framework

- Designed a Python-based portfolio risk and allocation framework benchmarked against market indices, incorporating Sharpe/Sortino ratios, VaR, Expected Shortfall, Monte Carlo simulation and mean-variance optimization.

Leadership & Activities

Goethe University & European Financial Institutions Study Visit — Frankfurt, Germany
International Exchange Programme — Apr 2026

- Attended ECB conference on European monetary policy and digital euro; visited Bundesbank.

BRICS+/Global South Observatory, Universidad Antonio Nebrija — Madrid, Spain
Co-Founder & Vice President — Mar 2026 – Present

- Co-founded the Observatory alongside a professor and former UNCTAD official, co-organising its inaugural event and coordinating outreach with embassies, academics and private-sector participants.
- Supported an international partnership with a South African university and research initiatives on BRICS+ and emerging markets.

Competitive Basketball — 2012 – 2022

- Competed at regional, national and international level, including the Spanish National Championship and the Castelldefels International Tournament.
